IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

RESPONSE TO RESTRICTION REQUIREMENT  
ELECTION OF CLAIMS

APPLICANT: Mindich, Alex                      DOCKET NO: P04,0019  
SERIAL NO.: 10/782,655                      ART UNIT: 3651  
FILED: February 19, 2004                      EXAMINER: Hess, Douglas A.  
CONF. NO. 5514  
TITLE: Prestressed Tubular Belt and Method for Making

Commissioner for Patents  
PO Box 1450  
Alexandria, VA 22313-1450

10 Dear Sir:

This communication is in response to the Office Action on the above-identified case mailed February 11, 2005 requiring a restriction. The Examiner grouped the claims as follows:

Group I	claims 1-11	self closing belt; 198 (class), 819 (subclass)
Group II	claims 12-24	method and system for manufacturing a belt with predetermined stresses, 156 (class) 160 (subclass)
Group III	claims 25-26	method of manufacturing a prestressed belt via a winding on a mandrel, 156 (class) 189 (subclass)

15 Applicant elects the claims in Group I (claims 1-11), without traverse for the restriction on this group of claims.

Applicant does traverse the requirement that the Group II claims and Group III claims be in separate groups. These claims are both classified under class/subclass 156/60, and a search in these related subclasses would not be unduly burdensome on the Examiner. Therefore, the Applicant respectfully requests that the restriction requirement between the non-elected Group II and Group III claims be withdrawn.

20

Respectfully submitted,

 (Reg. No. 45,877)
